Mission Statement

Our educational vision is to be a place of high aspirations, excellence, enjoyment and discovery.

Where everyone feels valued and achieves to the best of their potential.

Where self-discipline and very good behaviour is expected.

Where learners are able to make positive contributions to society and are prepared for future technologies.

Where we create motivated and lifelong learners and use a range of technologies to enhance and support learning.

Through our character-building curriculum we aim to develop:

Resilience – by providing strategies to enable children to cope and recover quickly from difficulties and setbacks.

Empathy – by providing opportunities and experiences to place themselves in the ‘eyes, ears and heart’ of others.

Self-awareness – by developing an understanding of own strengths, weaknesses, thoughts, beliefs, motivation, health, well-being and emotions.

Passion - by fostering a long-term love, enthusiasm and excitement for learning

Excellence - by encouraging the growth of individual qualities in order to achieve their maximum potential, so that excellence becomes a habit.

Communication – by creating an open, inclusive and welcoming learning community where all forms of communication are valued and listened to, enabling children to be expressive, reflective and evaluative learners.

Teamwork - by encouraging self-discipline, unity, patience, and co-operation within a safe and secure environment to make responsible decisions.
